Cataloging System

Yvert employs a unique alphanumeric coding system that assigns each stamp a specific number, facilitating clear communication among collectors and dealers. For example, a standard French definitive stamp from the 1930s might be listed as "Yvert 365," with "Yvert" indicating the catalog and "365" the specific entry. This system simplifies trading and ensures precise identification, especially when dealing with varieties and different printings.

Pricing and Valuation

One of the key features of the Yvert catalogue is its pricing guide. The catalogue provides retail and catalog values based on market trends, condition, and rarity. These values serve as benchmarks, helping collectors assess the worth of their holdings or determine fair prices when buying or selling stamps.

Illustrations and Descriptions

Each entry typically includes high-quality illustrations, detailed descriptions of the stamp's design, issuing authority, production details, and any noteworthy variations. The visual aspect helps collectors verify authenticity and distinguish between similar issues.
